# HOW TO READ THE ANNUAL REPORT

---

## What does the *'About Our School'* commentary section of this report refer to?

The 'About our school' commentary provides a brief background on the school and an overview of the school's performance over the previous calendar year.

The 'School Context' describes the school's vision, values, and purpose. Details include the school's geographic location, size and structure, social characteristics, enrolment characteristics, and special programs.

The 'Progress towards strategic goals, student outcomes, and student engagement' section allows schools to reflect on highlights related to implementation of and progress towards the School Strategic Plan and Annual Implementation Plan, and efforts to improve student learning, wellbeing, and engagement.

---

## What does the *'Performance Summary'* section of this report refer to?

The Performance Summary includes the following:

### School Profile

- student enrolment information
- the school's 'Student Family Occupation and Education' category
- a summary of parent responses in the Parent Opinion Survey, shown against the statewide average for Secondary schools
- school staff responses in the area of School Climate in the School Staff Survey, shown against the statewide average for Secondary schools

### Learning

- English and Mathematics for Teacher Judgements against the curriculum
- English and Mathematics for National Literacy and Numeracy tests (NAPLAN)
- Senior Secondary completions and mean study score

### Wellbeing

Student responses to two areas in the Student Attitudes to School Survey:

- Sense of Connectedness
- Management of Bullying

### Engagement

Student attendance and engagement at school, including:

- how many Year 7 students remain at the school through to Year 10
- how many exiting students go on to further studies or full-time work
- Student attendance at school

Results are displayed for the latest year and the average of the last four years (where available).

Key terms used in the Performance Summary are defined below:

### Similar Schools

Similar Schools are a group of Victorian government schools with similar characteristics to the school.

This grouping of schools has been created by comparing each school's socio-economic background of students, the number of non-English speaking students and the school's size and location.

### NDP and NDA

'NDP' refers to no data being published for privacy reasons or where there are insufficient underlying data. For example, very low numbers of participants or characteristics that may lead to identification will result in an 'NDP' label.

'NDA' refers to no data being available. Some schools have no data for particular measures due to low enrolments. There may be no students enrolled in some year levels, so school comparisons are not possible.

Note that new schools only have the latest year of data and no comparative data from previous years. The department also recognises unique circumstances in Specialist, Select Entry, English Language, Community Schools and schools that changed school type recently, where school-to-school comparisons are not appropriate.

## The Victorian Curriculum

The Victorian Curriculum F–10 sets out what every student should learn during his or her first eleven years of schooling. The curriculum is the common set of knowledge and skills required by students for life-long learning, social development and active and informed citizenship.

The Victorian Curriculum is assessed through teacher judgements of student achievement based on classroom learning.

The curriculum has been developed to ensure that school subjects and their achievement standards enable continuous learning for all students, including students with disabilities.

The 'Towards Foundation Level Victorian Curriculum' is integrated directly into the curriculum and is referred to as 'Levels A to D'.

'Levels A to D' may be used for students with disabilities or students who may have additional learning needs. These levels are not associated with any set age or year level that links chronological age to cognitive progress (i.e., there is no age expected standard of achievement for 'Levels A to D').

## Updates to the '*Performance Summary*' in the 2024 Annual Report

Reporting on the following measures has been updated in the 2024 Annual Report to align with changes to departmental and public reporting products.

### NAPLAN

In 2023 NAPLAN was updated to report against proficiency standards. For further information on the changes to NAPLAN reporting in 2023, please refer to the National Assessment Program ['Results and Reports'](#) page.

In line with these changes, the NAPLAN section of the Performance Summary includes NAPLAN data from 2022 to 2024. 2022 NAPLAN data is presented separately as this is not comparable with 2023 and 2024.

The NAPLAN section has been updated to include a 2-year average (2023 and 2024) for the percentage of students in the Strong or Exceeding proficiency levels. The 2022 NAPLAN section continues to report on the percentage of students in the top three bands.

Please note the previously reported NAPLAN 4-year average will not be available until 2026, when there will be 4 years' worth of NAPLAN data available under the new methodology. Similarly, NAPLAN Learning Gain data will not be reported until 2025 as the measure requires at least 3 full years of data for the comparison.

## About Our School

### School context

At Strathmore we aim to foster the intellectual growth of students and nurture the shared values of our school community. These values are PRIDE - Perseverance, Respect, Integrity, Diversity and Excellence. Our community's focus on achievement and success, together with our emphasis on support and connection provides students with every opportunity to proceed to a variety of post-secondary school options. Strathmore is a school of 1977 students, is proud of its tradition of providing an orderly and purposeful learning environment; of the fact that students feel safe and supported within the college; that we encourage achievement and the development within students of personal worth and identification with the college. Strathmore's ongoing success reflects the support of parents and the sustained commitment and involvement of staff. The school has 191.42 equivalent full time staff, 5 Principal class, 146.56 Teachers and 39.86 Education Support Staff. We value our teachers and recognise the complexity of their work. In our practice, we have emphasised the importance of using research-based classroom strategies and encourage the use of a common lesson format. We aim to establish a shared, common language, that describes good instruction. We also aim to foster learning habits which include resilience, self-motivation, curiosity, communication and creativity. As a school it is our responsibility to ensure our graduating students are properly equipped to face the many challenges and exciting opportunities that lie ahead.

Strathmore has a highly regarded International Student Program. It fosters international links with students coming from countries such as China, Vietnam, Japan, Thailand, and Malaysia. Strathmore is the home of the Victorian Space Science Education Centre (VSSEC), a centre of Science, Technology, Engineering and Mathematics (STEM) excellence.

### Progress towards strategic goals, student outcomes and student engagement

#### Learning

Strathmore Secondary College is performing at a high level, and analysis of available teacher judgement data via school-based assessments indicates that students are consistently achieving at or above expected standards. This exceeds the state average by a considerable margin and is on parity with similar schools. Our 2024 VCE mean study score and VCE completion rates indicate that we are performing 'above' the state average. Year 7-10 retention rates remain much higher than the state average and higher than similar schools suggesting a positive school culture. Strathmore Secondary College has also maintained a four-year average of 99% of students exiting to further studies or full-time employment, which is considerably higher than the state average and higher than similar schools.

Our 2024 NAPLAN Reading results for Year 7 indicate that the number of students achieving Strong or Exceeding is well above the state average. The same can be said of the Year 9 results.

In 2024 the college conducted a review of the Junior Reading program and the Support for Literacy program to assist with achieving higher levels of growth in this area. These changes have been implemented in Term 1 2025 and there will be continuous review of progress throughout the year. It was also pleasing to see that the 2024 NAPLAN Writing data, whilst not included in this report, maintained strong growth over a 4 year trend.

Our 2024 NAPLAN Numeracy results indicate we are well above the state in both Year 7 and Year 9. We have implemented extension programs for high ability students in the area of mathematics which should result in higher levels of growth and more students achieving Strong or Exceeding proficiency levels in NAPLAN in future.

All students involved in Disability Inclusion (Tier 3) showed progress at a satisfactory or above level in achieving their individual goals. Students achieved higher than expected levels of growth in numeracy and literacy when involved in the Tutor Learning Initiative and the Middle Years Literacy and Numeracy Support program.

## Wellbeing

The data for the Student Attitudes to School Survey results in 2024 were lower than the four year average. Whilst there had been an increase following the students return from remote and flexible learning after the COVID-19 Pandemic, the results have since dipped. In order to address these results the school undertook a review of leadership roles in 2024 and at the beginning of 2025 introduced a new Learning Specialist role - Leader of Student Wellbeing and Connection. This role is focused on data driven and evidence based improvement in engagement in the classroom and student connection to school. There are a number of initiatives that are being rolled out to target these areas of need in the school; including but not limited to the rollout of common classroom routines, school events to build community such as the Harmony Week events in Term 1 and the continued growth of the student leadership program.

The school values form the cornerstone of much of the work in this space. The values are Perseverance, Respect, Integrity, Diversity and Excellence (PRIDE). We are also reviewing the PRIDE framework to identify areas of further potential growth. We are continuing the journey of implementing the Mental Health First Aid program with our Year 8 cohort in 2025 having appointed an accredited instructor for this program. This training is planned to commence in Term 2 of 2025.

The Respectful Relationships group continues to work alongside staff to address some of the issues highlighted in the Attitudes to School Survey results. This includes students presenting to staff on issues identified as significant and important to their experiences at school. This presentation is planned for Term 4 2025.

## Engagement

The data for student retention and students exiting to further studies or full-time employment continues to be very positive. This illustrates the success of the college in retaining a very high percentage of our students through to the end of secondary school education. These results are positive given the ability of our school to maintain a mean VCE Study Score above the state

average. The 4 year average for student exit data showed 99% of students exiting to further study or full-time employment. This result is well above the state average. Pleasingly the 2024 result was 100%. A comprehensive career education program has been embedded in line with government policy. Data for the average number of student absence days is positive and indicates there are less school average days of absence than all Victorian Government Secondary Schools. Common reasons for non-attendance include illness and extended family holidays. The four-year average indicates that Strathmore has fewer student absences when compared with the state average.

## Other highlights from the school year

Strathmore Secondary College values excellence in all areas of the student experience. The college provides opportunities for extension, enrichment and engagement in the broader life of the school. This includes:

- PRIDE (Perseverance, Respect, Integrity, Diversity, Excellence) Framework activities including Year 7 Transition Camp, Year 8 Teen Mental Health First Aid, Year 9 Naarm Program, Year 10 Work Experience.
- School Production
  - Bi-annual performance where students have the opportunity to sing, dance, act and work behind the scenes on the production. They are accompanied by high achieving music students who also play the score.
- Music Concerts
  - Several music performance concerts including the Mid-Year Concert, Jazz nights, Performance Soiree, Chamber concert. There are twenty-three different instruments taught at Strathmore Secondary College.
- Inter-school Sports
  - A wide variety of athletics and sporting opportunities are available. This includes school carnivals in swimming and athletics as well as high level performance in the regional and state competitions.
- Art Exhibition
  - Senior students exhibit their work in a public gallery.
- Creative Arts Exhibition
  - A whole school exhibition to showcase student work across the creative arts and technology, performing arts and music faculties.
- The provision of challenge and enrichment and high ability programs through VSSEC
  - Astronomy and Astrophysics programs
  - Specialised STEM programs based on project-based learning

## Financial performance

Strathmore Secondary College is in a strong financial position at the end of 2024 even after posting a net operating deficit of \$1,109,462. Approximately \$745,000 of this deficit relates to the extension undertaken of the VSSEC building. The school's Strategic Plan and Annual Implementation Plan continue to provide the framework for efficient and effective resource allocation to support the school and to achieve positive student outcomes.

The Student Resource Package (SRP), which funds teacher and support staff salaries, indicates a total school deficit of \$632,645. This includes the Victorian Space Science Education Centre (VSSEC) staff funding and expenditure. As in previous years, the College's deficit is largely contributed to by the extensive music program and the highly regarded International Program which are both supplemented by Department cash funding and locally raised funds.

The school's ongoing cash operating surplus can largely be attributed to money allocated and funding provided by the Department related to targeted Department initiatives. This unspent money is carried forward to 2025. The College's Equity Funding was used towards teachers, professional learning, special programs and student resources to help support an equitable environment for all students.

## Performance Summary

The Performance Summary for government schools provides an overview of how this school is contributing to the objectives of the Education State and how it compares to other Victorian government schools.

All schools work in partnership with their school community to improve outcomes for children and young people. Sharing this information with parents and the wider school community helps to support community engagement in student learning, a key priority of the Framework for Improving Student Outcomes 2.0 (FISO 2.0).

Refer to the 'How to read the Annual Report' section for help on how to interpret this report.

### SCHOOL PROFILE

#### Enrolment Profile

A total of 1,960 students were enrolled at this school in 2024, 899 female and 1059 male.

18 percent of students had English as an additional language and 1 percent were Aboriginal or Torres Strait Islander.

#### Overall Socio-Economic Profile

The overall school's socio-economic profile is based on the school's Student Family Occupation and Education index (SFOE).

SFOE is a measure of socio-educational disadvantage of a school, based on educational and employment characteristics of the parents/carers of students enrolled at the school. Possible SFOE band values are: Low, Low-Medium, Medium and High. A 'Low' band represents a low level of socio-educational disadvantage, a 'High' band represents a high level of socio-educational disadvantage.

This school's SFOE band value is: **Low**

### Parent Satisfaction Summary

The percentage endorsement by parents on their General School Satisfaction, as reported in the annual Parent/Caregiver/Guardian Opinion Survey.

Percent endorsement indicates the percent of positive responses (agree or strongly agree) from parents who responded to the survey.

### School Staff Survey

The percentage endorsement by staff on School Climate, as reported in the annual School Staff Survey.

Percentage endorsement indicates the percent of positive responses (agree or strongly agree) from staff who responded to the survey.

Data is suppressed for schools with three or less respondents to the survey for confidentiality reasons.
